PERFORMANCE TESTING of Lease Management

Date	25 June 2025
Team ID	LTVIP2025TMID31361
Project Name	Lease Management

Objective:

To ensure that the Lease Management system performs reliably under various loads — ensuring **speed, scalability, and stability** during real-time usage.

TEST CASES:

Test Case ID: TC001
Test Description: To test the lease creation functionality with valid input data.
Input Data: Property Name = "Green valley", lease Name = "lease_tenant_Leaving_sriRam", Lease Start Date = "01-07-2025", Lease End Date = "30-06-2026".
Expected Result: The lease record should be successfully created and saved
Actual Result: The lease was created successfully and the data was stored correctly.
**Status:** Pass

Test Case ID: TC002
Test Description: To test the leaave approval workflow.
Expected Result: The leave should be routed to the approver and, upon approval, the status should update to "Approved".
Actual Result: The status was updated to "Approved", and an email notification was sent to the tenant.
**Status:** Pass

Test Case ID: TC003

Test Description: To test the behavior when submitting a lease with missing required fields.

Expected Result: The system should display a validation error and not allow the lease to be saved.

Actual Result: An error message was displayed prompting the user to fill in the required field.

Status: Pass

Test Case ID: TC004

Test Description: To test when a new tenant is created with existing property

Expected Result: An error shown

Actual Result: An error shown

Status: Pass
